Covid-19 Update #2

Hey My CP Folks,

So it looks like we might be doing “remote” teaching and learning for a while, possibly until the end of the semester. We’ll see how it goes, but for now, continue to monitor these “updates” so you’ll know the work we’re doing for the week. The current plan for classes follows...

U.S. Government / U.S. Government AP

In order to have everyone follow along with the separate units in the course, I’m going to have everyone in my US Government classes to access the Powerpoint presentations through my DVC Political Science 121 (Introduction to American Government) course. The link is here:

<http://www.kropfpolisci.com/dvcpolsci121.htm>

I’ll be doing some video teaching through something called “ScreenCast-O-Matic” that you’ll be able to access on the 121 page. For this week go to the “Governmental Bureaucracy” links (the date will be March 24th) and check out the video and readings for that week. Also, continue to work on Text Assignments which are outlined on our webpage, and the research paper. It will not be due until we find out more about when we might possibly return.

Sociology

We have a webpage! (don’t act so thrilled). You can access it at:

<http://www.kropfpolisci.com/cphssociology.htm>

First click the link where it says “Chapter 14: Education and Religion” to get the instructions for this week. The readings and videos will be posted under each week. You’ll be expected to complete all the work that’s posted.

I miss everyone and hope you’re all still happy and healthy under these really dreadful conditions. Please keep reading as much as you can to make the most out of this difficult time. Keep checking the webpages for updates.

Toodles,
Kropf
