“Capitalism and Democracy”

Final Due Date: Friday, October 8, 2021 (late papers will be marked down one letter grade).

Question: Your Bianco / Canon textbook tends to downplay the effects of the economic system on politics, using the phrase “free market” instead of capitalism and suggesting that “[t]he government does not get directly involved in most economic transactions, but it can provide the foundation for a strong free market and economic growth.” It therefore has a somewhat benign description of the relationship between capitalism and democracy. Beginning with an analysis of the text (democratic / bureaucratic theory) position, review some of the *critical interpretations* on the interaction of capitalism and democracy and give your own evaluation as to whether democracy can indeed thrive within a corporate capitalist system.

II. Body – the bulk of the paper is here, in data taken from the readings and other evidence that you have found to support this position (**approximately 6 pages**).

- b. Other Traditional DPE – supporting positions from a pluralism perspective.
- c. Critical DPE – what do some of the readings say on this issue. You should include but are not limited to the following scholarship: Parenti, Boyer, Alperovitz, Hightower, Street and Kelly.
- d. Outside DPE – are there other authors that you have examined that have a unique and/or important position on this question? They can come from any theoretical perspective.

III. Conclusion – from your reading of the various authors and theoretical positions, it is clear that democracy and capitalism CAN / CANNOT co-exist together in a workable and positive relationship for the people of the United States (**approximately 1 page**).
