

Instructions for the November 23, 2020 Lecture

Good evening folks,

We are fast approaching the end of our journey. We have our last theory of human nature tonight, so we'll be trying to understand human nature from the perspective of the Hindu world, which is currently about 15% of the world's population, approximately 1.2 billion people, which is very significant. We will also do a quick examination of various legislative and judicial systems, focusing on the U.S. but also comparing our systems with others. At this point you should be putting some finishing touches on your research paper and getting it ready for the final turn in on December 7. OK, here we go, let's check all this out....

Lecture 12. Legislative and Judicial Systems and Upanishadic Hinduism.

Task 1: Read these instructions.

Task 2: Read Heineman, Chapters 14 and 15 (pp. 179-204); and Stevenson, Chapter 2 (pp. 35-54).

Task 3: Watch the lecture presentation "Legislative and Judicial Systems and Upanishadic Hinduism." Anyone up for a Red Bull? Ha! Just kidding. Don't drink that stuff, not good for ya.

Task 4: Read the article for your journal response. You can find the question on the link titled "Lecture / Discussion Page" highlighted in yellow. After completing the response, you will have until the date posted on the assignments page to upload it to Canvas.

Task 5: Open the link for the video and watch *Koch Brothers EXPOSED*. How do these guys manage to get access to Congress? Simple. They buy them! (I wish I could buy a Congressman. I wonder how much they cost.....)

Task 6: Click the link titled "Discussion Board Question and Peer Responses for Video Presentation" and answer the question that I have posted in approximately one paragraph or so. Wait for other students to put their responses and then pick two students to respond to. The deadline for these responses will be posted on the Canvas assignments page. Don't be late....

So let's keep focused on getting everything in on time and looking perfect! I will see you all next week for our last lecture where we find out if we learned anything! So people, I'll see you then....
