

Instructions for Lecture Eight

All right, super, we are moving right along. So, we've looked at system and state levels of analysis for examining the reasons for war and conflict, our last 3 theories will be focused on the individual level. We'll start by rehashing the old "nature vs. nurture" argument so popular in the social sciences and finish next week with the newest theory of IR – peace studies theory. After these 3 lectures, I'll be recording a short discussion on APA formatting for your research paper. At the end of this week, we will be within a few of weeks of the research paper being due, so you best get on it. Don't wait until the last minute. This is a complicated topic, and you need to do a lot of research. OK, tonight, here's what we're gonna hit (pardon the pun):

Lecture 8. Human Nature Theory

Task 1: Read these instructions (always).

Task 2: Read Chapter 8 in the text.

Task 3: Watch the lecture presentation on "Human Nature Theory." Are we as bad as you think? Let's find out...

Task 4: Read the article for your journal response. You can find the question on the link titled "Lecture / Discussion Page" highlighted in yellow. After completing the response, you will have until the date posted on the assignments page to upload it to Canvas.

Task 5: Open the link for the video and watch *Soldiers of Conscience*. I have yet to find a documentary that so thoroughly examines the nature vs. nurture argument with regard to war that this film. Watch it and think deep!

Task 6: Click the link titled "Discussion Board Question and Peer Responses for Video Presentation" and answer the question that I have posted in approximately one to two paragraphs or so. Wait for other students to put their responses and then pick two students to respond to. The deadline for these responses will be posted on the Canvas assignments page. Don't be late....

So, is human nature the problem? Hold on a minute say scientists who subscribe to:

Lecture 8 (continued). Cognitive Theory

Task 1: Same instructions as above.

Task 2: Read Chapter 9 of the text.

Task 3: Watch the second lecture presentation on the “CognitiveTheory.” My psych majors will probably like this one. Our problem is not *nature...it’s nurture*.

Task 4: Read the article for your journal response (Same reading as above with Horgan). You can find the question on the link titled “Lecture / Discussion Page” highlighted in yellow. After completing the response, you will have until the date posted on the assignments page to upload it to Canvas.

Task 5: Continue with *Soldiers of Conscience*.

Task 6: Same as Task 6 above. Your thoughts on this film will constitute your Discussion Board response. Same deadline as above.

See everybody next week for our last theory! Whew! (finally).

Peace out,

Kropf

NATURE

NURTURE
